are going to make another fight to "join the Union." It is said that efforts will be made

in the legislature at the approaching session to create three new officesbank inspector, insurance inspector and oyster inspector.

North Carolina seems likely to get on the national ticket next year. Gen. Mat Ransom, the poblest Roman of them all, has been spoken of as a vice presidential candidate.

While the cotton mills of the North are cutting down work days and wages, our mills go on paying the same wages and running on full time, for which every one should be thankful.

A few days ago a negro political party was launched in Chattanooga, which declares in strong terms in favor of independent political effort and against whiskey, cocaine and peonage.

Within the past few days the thermometer has been away below zero throughout the northwest. -No wonder these people are seeking homes in the sunny south, the best country in the world.

In his annual report Fourth Assistant Postmaster Bristow recommends that the maximum pay of a rural carrier be increased to \$750 annually for a route of twenty-five miles or more in length. The services of the earriers are surely worth that salary.

It is gratifying to see the price of cotton so well sustained, and doubly so to note that Southerners have led the bull movement and profited by it. Wall street will come to realize in time that Southern men know a little about cotton and trade conditions.

The Secretary of State has completed the statistics of the capitalization of new State banking corporations organized during the year, most of which are in operation or will be soon. The total capitalization amounts to \$1,100,000 which exceeds that of previous years.

Reports from Washington indicate that there is some danger that Congressman Lever, of the Seventh South Carolina district, may lose his seat, which is being contested by a negro named Dantzler, from Orangeburg County, who received less than 150 votes in the last election.

President Roosevelt has been coddling the collector brother and making himself sure and certain for the colored vote for the next nominating convention, but after all his trouble the colored brother will dump him over and get into the Hanna bandwagon when the time comes.

If there is any one thing that has been firmly established beyond all doubts, it is that there is nothing sectional in the matter of lynching, nor is it confined to the negro race for victims. It took the North a long time to admit this, but the admission had to come. The consequence is that the Northern press is deprived to a large extent of its editorial stock in trade, and the sensational head line writers have had to lay in a new supply of journalistic scap of a different

The tax commission has practically agreed upon the various recommendations to be made to the next Legislature, but before sending them to that body they will be carefully gone over by a member of the commission, to put them in legal shape, and see that they do not conflict with the Consticution, etc. The principal recommendation will be the institution of a franchise tax. Another departure from the present laws proposed will be the imposition of a license for fish-

The keynote of Christmas joy is "Peace on earth, good will to men." The first Christmas day that ever dawned brought rejoicing in its wake. On that day there was born in Bethlehem, Judea, a Saviour, who is Christ the Lord. For those weary with sin, for those oppressed with sorrows, for the troublad in mind, for the weak and helpless He came. But not to these alone. To the joyful and happy ones, to those rich in this world's goods, to the successful and prosperous He came. To the whole world he appeared. None was forgotten by Him. And now to the outcast and to the weary one, to the rich man and to the
